

ENGINEERED BY US

Meet April Foss, Senior Manager at Schweitzer Engineering Laboratories leading Marketing Operations and SEL University.

She lives in Pullman with her husband, Jeremy, and their son, Austin, who attends Sunnyside Elementary. They are a self-described "ice hockey family" -- all three play hockey to keep active, and April and Jeremy both volunteer and coach hockey.

April has been with SEL for 15 years. She started as a market analyst in Research and Development and has held various roles and positions throughout her SEL career. "I wanted to work in a place that shared my values. I also wanted a career where I could mesh together my interests in technology, business, and marketing. SEL seemed like a perfect fit for my interests, my values, and a place where I could learn and grow."

"I work with such a great group of people that it makes coming to work each day interesting and exciting. There is so much opportunity to take on new challenges, solve new problems, and make a difference."
