## ONLINE BY US

LC State: Idaho's Leader in Online Education

The LC State Business Division has been offering online degrees for more than 17 years. We are experts at providing quality education live or online with knowledgeable and dedicated instructors.

According to a study by the National Association of College and Employers, eight of the top 10 majors in demand by employers at the bachelor's degree level are in business, including Accounting, Business Administration, and Business Management, which are all offered online and accredited at LC State. We also have online degrees in Business & Communications, Sport Administration and General Studies: Business, as well as minors in Leadership, Marketing and Non-Profit Management. Our graduates can be found working in banks, manufacturing plants, agricultural and technology companies, etc. and running their own businesses.

Our online delivery is perfect for working adults and parents.

*"Why should you consider earning a business degree? Because no matter what you do in life, to succeed, you will need to work effectively with people and numbers. These are precisely the skills a business degree at LC State can help you achieve."*

- Luther Maddy, Business Division Chair

## COMMUNITY LEADERS BY US

Meet Julianne Rowe of Kamiah, a 2020 LC graduate who earned her bachelor's degree online in General Business.

Julianne earned a 3.95 GPA and completed her last 51 credits online while working and raising her family. She and her husband have four children, ranging from 4 to 12 years old. Julianne also is active in community service and enjoys helping others.

*"It was super flexible and that's what I needed," Julianne said. "I have four kids and worked most of the time so being super flexible was important. I found the professors were very responsive. When I emailed them, they responded quickly and were available by phone during regular office hours each week."*
