

# CELEBRATED BY US

Meet Jenna Hatfield, Event Coordinator for Hahn Event Rentals. She has been with Hahn for a little over a year and describes her position as her dream job.

"I get to help people with their weddings, birthday parties, corporate events, graduation parties and everything in between! The most rewarding part of my job is helping people with major events in their lives. Hahn is so good to their employees and I am lucky to be part of such an amazing team!"

On her off time Jenna can be found riding four-wheelers, shooting and picking huckleberries at her family's property. She also loves spending time with her family, her parents Shaun and Caroline Hatfield, her friends and her dog Paisley.

"I love getting to live in the Inland Northwest. It's the most beautiful place to explore and adventure."

Shopping and spending locally is a wise investment in the community you live in.

**BUY LOCAL AND MAKE A DIFFERENCE.**

# ECONOMIES BY US

"When you shop online, the only 'local' person being affected by that purchase is the UPS person or USPS carrier who delivers it. When you buy local, even if it's at a 'box store' you are helping your neighbor who works there keep his or her job. ... Every purchase really affects a lot of different aspects of our local economy."
