

# MEETING THE NEED BY US

This year the Tri-State Memorial Hospital & Medical Campus' Dialysis Center received an increase for Overall Star Ratings from Dialysis Facility Compare; Dialysis Facility Compare measures the quality of care at over 7,000 facilities across the country.

The Tri-State Dialysis Center is the only 4-star rated dialysis center in the Lewis-Clark Valley. It ranks above the national average with 5-stars in Patient Experience.

"It is great to see how our efforts and dedication pays off. We have been a 5-star Patient Experience Clinic for multiple years now, but having the 4-star Overall Rating is a true testament to the support and dedication of our staff, providers, and Tri-State Memorial Hospital," said Jason Spurlock, Dialysis Services Director. "At Tri-State Memorial Hospital Dialysis, our patients' quality, safety, and satisfaction are always at the center of our attention."

The Tri-State Dialysis Center is a non-profit, independent dialysis clinic that is open six days a week. For more information, please call 509.758.4656.

Has the ability to treat **72 Patients** per day.

**7,600** Hemodialysis treatments performed in 2018.

BUY LOCAL AND MAKE A DIFFERENCE.

# STYLE BY US

"Not only is buying local crucial to our economy, but it also creates a sense of place for our community. It is not the big box stores that make our town memorable. Rather, it is the local flavor and atmosphere created by the success of small businesses that make Lewiston what it is — an appealing place to live, play, and work. Small business owners like me have the unique opportunity to tailor our product assortment and programming to our neighbors and friends, the customers we serve. What could be better than that?"
