

# SUPPORTED BY US

Meet Brad Anderson, Assistant Director - Technology for Regence BlueShield of Idaho.

Brad and his wife of 32 years, Shelley, were both born and raised on the Palouse and live outside Moscow just 2 miles from the family ranch where he grew up. They have one daughter, Taylor, and are busy planning a July wedding for her and fiancé Jake.

Brad celebrated his 25th anniversary with Regence in August. "Over the years ... I have had several IT roles from hands-on application developer to my current leadership position." He currently manages several teams which support internal as well as customer-facing applications that process claims and pay providers.

"The reward is knowing that our members are receiving the care they need, and their claims are being processed and paid as timely and accurately as possible, allowing our members to focus on their health."

# BRIGHTENED BY US

"I feel so privileged to call (the Lewiston-Clarkston Valley) home and to work for a 'made in Idaho' company that shares my passion for 'neighbor helping neighbor.' Whether it's addressing housing, food insecurity or other societal challenges, I'm proud of my Lewiston coworkers and Regence for the countless volunteer hours and hundreds of thousands of dollars so willingly given to local nonprofits to lighten the loads and brighten the lives of my neighbors in need here."

-- Jackie Heaven-Ahhi, Director, Customer & Provider Service, Regence BlueShield of Idaho
