

# EVENTS BY US

Meghan was born and raised in Lewiston, Idaho. After seven years in Hawaii, she returned to the great state of Idaho in 2016 to raise her daughter and has been working at Happy Day Catering ever since. *"This company is so family-oriented. Every day when I come to work, I feel like I am welcomed by my family."*

As an event coordinator, Meghan builds relationships with clients to create beautifully imagined, professionally produced events. Meghan's top priority is to make clients' event dreams into reality, meeting their needs with years of industry expertise so clients can enjoy their parties without working or worrying.

Meghan enjoys getting to know others in the community and creating connections along the way. Catering is a great opportunity to meet people from all walks of life since our biggest occasions are centered around food: weddings, retirements, baby showers, memorials, graduations, and more. She also works with many businesses and nonprofits, both at Catering and as a volunteer, where she finds meaning in giving back to the community:

*"It means more to me now than ever because my daughter is growing up here. My role as President of the Women's Connection is especially important and dear to my heart. I want my daughter to have every opportunity to be happy and successful."*
