

ORGANIZED BY US

Meet Troy Ledgerwood, board vice chair of Valley Vision and president of Credit Bureau of Lewiston-Clarkston, Inc.

Troy and his wife, Meghan, have two children, Nate and Jill. His hobbies range from traveling to woodworking and woodcarving. He has been on the Valley Vision board since 2012.

"I have always appreciated that Valley Vision is not constrained by any specific state, county, city, business or other organization. Valley Vision was formed and structured to be able to promote the entire LC Valley and to enhance all aspects of the local economy. It is truly a 'rising tide lifts all boats' type of organization and I find being part of that coordinated effort to be very rewarding.

"The Valley Vision board is the most talented and diverse board I have ever had the privilege to be a part of. Our board is comprised of business and civic leaders from every segment of our local community and they have their hand on the pulse of the LC Valley."

Buying LOCAL has never been more important. Please join the recovery.

Buy local and make a difference.

DEDICATED BY US

"A key economic development metric is the stability and growth of the largest employers in a region. The LC Valley's 10 largest employers have shown amazing resiliency and growth, even through recession and economic downturn. Our 22 percent job growth for our largest employers compares to the United States total of just 11.7 percent job growth for the same period. Business retention and the growth of our stable employers have been key missions and top priorities for Valley Vision since 1996." says Scott Corbitt, president/CEO of Valley Vision, Inc.
