

EXCITED ABOUT THE FUTURE

Meet Scott Corbitt, General Manager of The Port of Lewiston.

Scott began working for the Port earlier this year after having previously served as president/CEO of Valley Vision.

“Our mission involves many different aspects of economic development like building broadband networks, developing and managing properties, advocating for fish and dams, and performing community outreach,” he said. “We do this with a small but amazing team of professionals. Our mission of making north central Idaho a better place to live and do business is what makes the job so rewarding.”

Scott said the Port’s prospects “make our jobs exciting.”

“We are working hard to become the first and only river cruising dock in Idaho.

This will bring some great access to the river for the folks in the Valley and maybe even an amphitheater for concerts by the confluence.

“We are developing property for great new Valley businesses and providing opportunities for growing businesses in our incubator. Combined with our broadband and other projects, we are excited about the future at the Port of Lewiston.”

You can't buy LOVE but you can buy LOCAL.
And that's sorta the same thing.
