

THIS BUSINESS IS SUPPORTED BY LOCAL DOLLARS

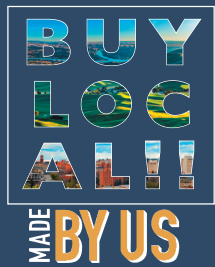

Palouse Land Trust was founded in 1995 by a group of citizens concerned about the future of open spaces, wildlife habitat corridors, native ecosystems, and working family farms and forests. While we do own land outright, the majority of our work is helping local families establish conservation easements. Conservation easements enable private landowners to protect and conserve open space, wildlife habitat, water quality and our community's favorite views while keeping the land in private ownership. We are a nonprofit entity, supported by generous individual supporters and grants.

Executive Director, Lovina Englund

Communications and Development Coordinator, Jaime Jovanovich-Walker

Conservation Projects Manager, Karl Meyer
