Meet **Jennifer Howlett**, Individual Underwriting Manager for Regence BlueShield of Idaho.

Jennifer and her husband, Nathan, have been married 25 years and have two grown children, son Cole, 22, and daughter Allison, 19.

When she's not working, Jennifer enjoys gardening, reading, traveling, walks with her two pups, Piper and Lucy, and spending time with family.

She celebrated her 25th year with Regence in December, having spent most of that time in Underwriting for the Individual and Medigap lines of business.

"When an applicant applies for Individual or Medigap health insurance coverage, they will encounter our incredible

Underwriting team," she said. "The most rewarding part of my job is supporting Regence, growing my teammates, and helping applicants. I take pride in working for Regence and incorporating our company values.

"Each team takes part in making both the company and the Underwriting department a success during the Open Enrollment season, as well as throughout the year," she added. "I appreciate each area we collaborate with while working through pain points and process improvements to ensure our continued success.

"Making lifelong relationships across the company allows me to easily support customers and support the Underwriting team."

- 78 years serving our Idaho neighbors
