

MADE BY US BUY LOCAL!!!

Meet McKenzie Brumet, manager of Community Outreach for Schweitzer Engineering Laboratories.

In her role within the SEL Corporate Communications team, McKenzie engages with organizations throughout the community and manages SEL giving.

She moved to Pullman in 2008 to join SEL as a conferences and trade show coordinator and has been an active member of the communities on the Palouse and LC Valley since. She currently

serves on the boards of directors of the Pullman Chamber of Commerce and the Boys & Girls Clubs of the Lewis-Clark Valley and is a member of the Pullman Town & Gown Committee. She previously served as a board member of the United Way of Whitman County and the Washington Idaho Symphony.

"I enjoy sharing the SEL story and learning about all the good things going on in our communities, and seeing where we can get involved," said McKenzie. "I am inspired by what people can accomplish when working together to build stronger communities."

When she's not working, you might find her enjoying a run, teaching yoga, snow skiing, or hanging out with Maple, her Golden Retriever. Her newest hobby is learning to play the guitar.

One of the great local non-profits that SEL partners with is the Boys & Girls Clubs of the Lewis Clark Valley. The Clubs serve more than 3,600 members annually, providing nutritious meals, before- and after-school activities, a nationally accredited apprenticeship program and STEM mentoring.

SEL has been a supporter of the organization since 2012 and its employees enjoy volunteering in a variety of ways, like helping serve afternoon snacks, leading STEM activities, and serving on the board of directors.

Thank you to the BGCLCV for serving kids and families of the Lewis-Clark Valley for 78 years!
